## **Chair & Chief Executive Officer's Report**

**30 June 2020**

2019-2020 has been an extraordinary year for us all. The drought, bushfires and COVID-19 pandemic have had a significant impact on our lives and livelihoods. Our Members have responded positively by adapting to new ways of working, and new ways of keeping us safe.

Please note that this annual report includes the projected impact of COVID-19 on NICU's performance. Some commentators have suggested that the pandemic may be the most significant challenge to the financial system for several decades. Fortunately, given our good governance and strong capital position, and the ongoing loyalty of our Members, NICU is well-placed to weather any consequences and to assist those Members who may need our help at this time.

Financial results overview: Northern Inland Group has had another profitable year in a considerably challenging, low interest rate environment, with an after tax profit of \$1,265,374.

The business continues to grow with total assets growing by 13.30% to reach \$355,250,483 at the close of the financial year. Our return on assets was 0.37% and was above budget for the year. Our Capital Adequacy Ratio finished the year at 19.83%.

Member deposit balances increased by 13.59% during the year to \$303,954,564. This was aided by the conservative and cautious nature of our Members and their savings habits. This strong savings growth helped to support our increased lending, with loans growing by 6.54% annually, and total loan balances reaching \$258,972,028 at year end. Our commitment to responsible lending was reflected in our bad and doubtful debt provision levels of 0.09%, which is well below the industry average.

**This year's highlights:** following on from extensive ground work in 2019, NICU heads into 2020-2021 with project work well advanced on implementing upgrades and improvements to our operating systems as part of our digital transformation strategy. This investment in our infrastructure will see greater functionality available to our Members. Instructions for which Members were previously reliant upon branch or contact centre staff to perform, will soon be able to be carried out by Members at any time, from the convenience of their mobile phone or tablet device.

Member uptake of electronic services has continued unabated. This has also been reflected in the lower foot traffic in our branches, and this year our Board took the difficult decision to consolidate our Tamworth branches to the one location in Peel Street. We are pleased to advise that all our team members are now working from the one location, and assisting our Members in the transition, and the Board expresses its appreciation to Members for their understanding.

**Supporting our community:** NICU continues to be the only credit union based in northwest NSW with branches in Tamworth, Gunnedah and Narrabri, and we take an interest in developing partnerships with many community based organisations operating in our area. In the past year we have provided financial support by way of sponsorship or donations to many worthy organisations

**Tamworth:** Tamworth City Bowling Club; Tamworth Gymnastics Club Inc; West Tamworth Sports and Bowling Club; Tamworth Carols in the Park; Tamworth Junior Cricket Association; Moonbi Museum Committee; Tamworth P&A Assoc Junior Campdraft; Tamworth & District Campdraft Club; Hillvue Rovers Football Club;

**Narrabri:** Narrabri Meals on Wheels; Narrabri Arts Eisteddfod; Narrabri Riding for the Disabled; Narrabri & District Pony Club; Narrabri High School;

**Gunnedah:** Gunnedah High School; St Mary's College Gunnedah; Albion Cricket Club; PRAMS; Gunnedah South Public School; Gunnedah Oz Tag.

**Where to from here:** we continue to refine our operations in terms of effectiveness and efficiency. As part of our business improvement efforts you may receive communications over the coming months with respect to the streamlining of our products and services, and other changes that align our processes with systems being used by the larger financial institutions.

We also take this opportunity thank all of our dedicated staff and Directors for their efforts during the year and also thank Members for their continued loyalty.

Derek McIntyre  
**Chief Executive Officer**

Occupation	Retired

#### Company secretary

The following person held the position of company secretary at the end of the financial year:

Anna Clark (Compliance) has been the company secretary since 2011.

## **Directors' Report**

**30 June 2020**

### **1. General information (continued)**

#### **Principal activities**

The principal activities of the Group during the financial year were:

- To accept funds on deposit from Members;
- To apply these funds to make loans to Members; and
- To provide other required services to Members.

Activity of the entities within the consolidated entity during the year was the provision of a complete range of financial products and services to Members.

No significant change in the nature of these activities occurred during the year.

### **2. Operating results and review of operations for the year**

#### **Operating results**

The consolidated profit of the Group amounted to \$ 1,265,374 (2019: profit of \$ 1,027,529).

#### **Dividends paid or recommended**

No dividends were paid or declared since the start of the financial year. No recommendation for payment of dividends has been made.

#### **Review of operations**

A review of the operations of the Group during the financial year and the results of those operations is contained within the Chair and Chief Executive Officer's joint report.

### **3. Other items**

#### **Significant changes in state of affairs**

There were no significant changes in the state of NICU's affairs during the year. The COVID-19 pandemic has impacted all businesses during the last four months of the financial year. In response to COVID-19, NICU implemented aspects of its pandemic plan, and maintained heightened hygiene controls to ensure compliance with government requirements. NICU ensured all Members were able to access contactless payments. With the exception of temporary changes to branch operating hours, NICU has remained largely unaffected by the pandemic to date. Whilst an increase to Expected Credit Losses (ECL) has been provided, deposit growth has remained strong, and it is reasonably anticipated that COVID-19 hardship arrangements will have been finalised before the end of December 2020.

#### **Events after the reporting date**

No matters or circumstances have arisen since the end of the financial year which significantly affected or may significantly affect the operations of the Group, the results of those operations or the state of affairs of the Group in future financial years.

## Directors' Report

30 June 2020

### 3. Other items (continued)

#### Future developments and results

Likely developments in the operations of the Group and the expected results of those operations in future financial years have not been included in this report as the inclusion of such information is likely to result in unreasonable prejudice to the Group.

#### Directors' benefits

No director has received or become entitled to receive during, or since the financial year, a benefit because of a contract made by NICU, controlled credit union, or a related body corporate with a director, a firm of which a director is a member or a credit union in which a director has a substantial financial interest, other than that disclosed in Note 26 of the financial report.

#### Meetings of directors

During the financial year, 26 meetings of directors (including committees of directors) were held. Attendances by each director during the year were as follows:

	Board Meetings		Audit Committee		Marketing Committee		Board Risk Committee		Board Nomination Committee	
	Number eligible to attend	Number attended	Number eligible to attend	Number attended						
Barry Pratten	12	12	-	-	1	1	-	-	-	-
Robert Stude	12	11	6	6	1	1	6	6	1	1
John Cooke	5	5	-	-	1	1	-	-	-	-
Robert Carrington	12	12	6	6	1	1	-	-	-	-
Geoffrey Harris	12	11	-	-	-	-	6	5	-	-
Charles McCarthy	7	7	3	3	-	-	-	-	-	-
Wayne Riggien	12	11	2	2	-	-	6	6	1	1
David Winnick	12	11	-	-	1	1	6	6	-	-
Graham Goodman	12	12	6	6	1	1	3	3	1	1

#### Indemnification and insurance of officers and auditors

Insurance premiums have been paid to insure each of the directors and officers of NICU, against any costs and expenses incurred by them in defending any legal proceeding arising out of their conduct while acting in their capacity as an officer of NICU. In accordance with normal commercial practice disclosure of the premium amount and the nature of the insured liabilities is prohibited by a confidentiality clause in the contract.

No insurance cover has been provided for the benefit of the auditors of NICU.

#### Proceedings on behalf of company

No person has applied for leave of Court to bring proceedings on behalf of the Group or intervene in any proceedings to which the Group is a party for the purpose of taking responsibility on behalf of the Group for all or part of those proceedings.

## **Directors' Report**

**30 June 2020**

### **3. Other items (continued)**

#### **Disclosure of prudential information**

NICU is an Authorised Deposit-taking institution regulated by the Australian Prudential Regulation Authority (APRA). As a result of this regulation, NICU is required to comply with Australian Prudential Standards (APS) released by APRA. APS 330 Public Disclosure requires NICU to disclose information regarding its composition of regulatory capital base and risk exposures and a reconciliation of the balance sheet in the financial statements to the balance sheet prepared under the regulatory scope of consolidation. Please refer to the "Disclosure Documents - Regulatory Disclosures" section of NICU's website for further information.

#### **Auditor's independence declaration**

The lead auditor's independence declaration in accordance with section 307C of the *Corporations Act 2001*, for the year ended 30 June 2020 has been received and can be found on page 8 of the financial report.

Signed in accordance with a resolution of the Board of Directors:

Chair: .....  
Robert James Studte

Deputy Chair: .....  
Barry Edward Pratten

Dated 1 October 2020

**AUDITORS INDEPENDENCE DECLARATION UNDER SECTION 307C OF THE  
CORPORATIONS ACT 2001**

**TO THE DIRECTORS OF NORTHERN INLAND CREDIT UNION LIMITED**

**Auditors' Independence Declaration**

I declare that, to the best of my knowledge and belief, during the year ended 30 June 2020, there have been:

- (i) no contraventions of the auditor independence requirements as set out in the *Corporations Act 2001* in relation to the audit; and
- (ii) no contraventions of any applicable code of professional conduct in relation to the audit.

## Northern Inland Credit Union Limited

ABN: 36 087 650 422

# Notes to the Financial Statements

For the Year Ended 30 June 2020

The financial report includes the consolidated financial statements and notes of Northern Inland Credit Union Limited and controlled entities (the Group) and the separate financial statements and notes of Northern Inland Credit Union Limited as an individual entity (NICU). The report was authorised for issue on 1 October 2020 in accordance with a resolution of the board of directors. Northern Inland Credit Union Limited is a for profit entity for the purpose of preparing the financial statements.

The consolidated financial statements are presented in Australian dollars which is the parent entity's functional and presentation currency.

### 1 Summary of Significant Accounting Policies

#### (a) Basis of Preparation

The financial statements are general purpose financial statements that have been prepared in accordance with Australian Accounting Standards, Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board and the Corporations Act 2001.

These financial statements and notes comply with International Financial Reporting Standards as issued by the International Accounting Standards Board.

The significant accounting policies used in the preparation and presentation of these financial statements are provided below and are consistent with prior reporting periods unless otherwise stated.

The financial statements have been prepared on an accruals basis, and are based on historical costs, which do not take into account changing money values or current values of non current assets except for real property and investments which are stated at fair value. The accounting policies are consistent with the prior year unless otherwise stated.

#### (b) Principles of Consolidation

The consolidated financial statements include the financial position and performance of controlled entities from the date on which control is obtained until the date that control is lost.

Intragroup assets, liabilities, equity, income, expenses and cashflows relating to transactions between entities in the consolidated entity have been eliminated in full for the purpose of these financial statements.

Appropriate adjustments have been made to a controlled entity's financial position, performance and cash flows where the accounting policies used by that entity were different from those adopted by the consolidated entity. All controlled entities have a June financial year end.

A list of controlled entities is contained in Note 27 to the financial statements.

#### (c) New standards applicable for the current year

##### Leases - AASB 16

NICU has early adopted AASB 16 - Leases on 1 July 2018 and therefore the financial impact of this standard have already been recognised throughout the financial statements.

## **Notes to the Financial Statements**

**For the Year Ended 30 June 2020**

### **1 Summary of Significant Accounting Policies (continued)**

#### **(d) Revenue Recognition**

Revenues are recognised at fair value of the consideration received net of the amount of goods and services tax (GST) payable to the Australian Tax Office (ATO). Exchanges of goods or services of the same nature and value without any cash consideration are not recognised as revenues.

#### **Sale of Non-current Assets**

Revenue from the disposal of assets is recognised when title passes from NICU to the purchaser. The gain or loss on disposal is calculated as the difference between the carrying amount of the asset at the time of disposal and the net proceeds on disposal.

#### **Dividends**

Dividend income is recognised on the date NICU's right to receive payment is established.

#### **Interest Income**

Interest income is recognised in the profit or loss using the effective interest method. The effective interest rate is the rate that exactly discounts the estimated future cash payments and receipts through the expected life of the financial asset (or, where appropriate, a shorter period) to the carrying amount of the financial asset. When calculating the effective interest rate, NICU estimates future cash flows considering all contractual terms of the financial instruments, but not future credit losses.

#### **Loan Origination Fees**

Loan origination fees are initially deferred as part of the loan balance, and are brought to account as income over the expected life of the loan. The amounts brought to account are included as part of interest revenue.

#### **Rental Income**

Rental income from sub-leases is recognised on a straight line basis over the term of the lease.

#### **Other Revenue**

Fee, commission and other revenue is recognised when the service is completed, or when the fee in respect of services provided is receivable.

#### **(e) Transaction Costs**

Transaction costs are expenses which are direct and incremental to the establishment of the loan. These costs are initially deferred as part of the loan balance, and are brought to account as a reduction to income over the expected life of the loan.

#### **(f) Income Tax**

The tax expense recognised in the statement of profit or loss and other comprehensive income relates to current income tax expense plus deferred tax expense (being the movement in deferred tax assets and liabilities and unused tax losses during the year).

## **Notes to the Financial Statements**

**For the Year Ended 30 June 2020**

### **1 Summary of Significant Accounting Policies (continued)**

#### **(f) Income Tax (continued)**

Current tax is the amount of income taxes payable (recoverable) in respect of the taxable profit (tax loss) for the year and is measured at the amount expected to be paid to (recovered from) the taxation authorities, using the tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is provided on temporary differences which are determined by comparing the carrying amounts of tax bases of assets and liabilities to the carrying amounts in the consolidated financial statements.

Deferred tax is not provided for the following:

- The initial recognition of an asset or liability in a transaction that is not a business combination and at the time of the transaction, affects neither accounting profit nor taxable profit (tax loss).
- Taxable temporary differences arising on the initial recognition of goodwill.
- Temporary differences related to investment in subsidiaries, associates and jointly controlled entities to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax consequences relating to a non-monetary asset carried at fair value are determined using the assumption that the carrying amount of the asset will be recovered through sale.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and losses can be utilised.

Current tax assets and liabilities are offset where there is a legally enforceable right to set off the recognised amounts and there is an intention either to settle on a net basis or to realise the asset and settle the liability simultaneously.

Deferred tax assets and liabilities are offset where there is a legal right to set off current tax assets against current tax liabilities and the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

Current and deferred tax is recognised as income or an expense and included in profit or loss for the period except where the tax arises from a transaction which is recognised in other comprehensive income or equity, in which case the tax is recognised in other comprehensive income or equity respectively.

Northern Inland Credit Union Limited and its wholly-owned Australian subsidiary and unit trust have been consolidated for tax purposes under the Tax Consolidation System. NICU is responsible for recognising the current tax assets and liabilities for the consolidated group. The tax consolidated group has a tax sharing agreement whereby each entity in the group contributes to the income tax payable in proportion to their contribution to the taxable profit of the tax consolidated group.

## **Notes to the Financial Statements**

**For the Year Ended 30 June 2020**

### **1 Summary of Significant Accounting Policies (continued)**

#### **(g) Cash and Cash Equivalents**

Cash and cash equivalents comprise cash on hand and demand deposits which are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value.

#### **(h) Loans and Advances to Members**

All loans are initially recognised at fair value, net of transaction costs incurred and inclusive of loan origination fees on the date that they are originated. Loans are subsequently measured at amortised cost less impairment losses. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the profit or loss over the period of the loan using the effective interest method.

Loans are derecognised if NICU's contractual rights to the cash flows from the loans expire or if NICU transfers the loan to another party without retaining control or substantially all risks and rewards of the loan.

#### **(i) Loan Impairment**

Impairment requirements use more forward looking information to recognise expected credit losses - the 'expected credit loss model' (ECL). Instruments within the scope of these requirements include loans and advances and other debt-type financial assets measured at amortised cost and FVOCI, trade receivables and loan commitments and some financial guarantee contracts (for the issuer) that are not measured at fair value through profit or loss.

A broader range of information is considered when assessing credit risk and measuring expected credit losses, including past events, current conditions, reasonable and supportable forecasts that affect the expected collectability of the future cash flows of the instrument.

In applying this forward-looking approach, three distinct stages of impairment are made:

- Stage 1 - Financial instruments that have not deteriorated significantly in credit quality since initial recognition or that have low credit risk (performing loans);
- Stage 2 - Financial instruments that have deteriorated significantly in credit quality since initial recognition and whose credit risk is not low (underperforming loans); and
- Stage 3 - Covers financial assets that have objective evidence of impairment (loans in default/non-performing) at the reporting date.

#### **Measurement of ECL**

'12 month expected credit losses' are recognised for the first category while 'lifetime expected credit losses' are recognised for the second category. Measurement of the expected credit losses is determined by a probability weighted estimate of credit losses over the expected life of the financial instrument. They are measured as follows:

- Financial assets that are not credit-impaired at the reporting date: as the present value of all cash shortfalls (i.e. the difference between the cash flows due in accordance with the contract and the cash flows expected to be received);
- Financial assets that are credit-impaired at the reporting date: as the difference between the gross carrying amount and the present value of estimated future cash flows;

## **Notes to the Financial Statements**

**For the Year Ended 30 June 2020**

### **1 Summary of Significant Accounting Policies (continued)**

#### **(i) Loan Impairment (continued)**

##### **Measurement of ECL (continued)**

- Undrawn loan commitments, being the present value of the difference between the contractual cash flows that are due if the commitment is drawn down and the cash flows expected to be received; and
- Financial guarantee contracts, being the expected payments to reimburse the holder less any amounts expected to be recovered.

##### **Credit impaired financial assets**

At each reporting date, NICU assesses whether financial assets carried at amortised cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- Significant financial difficulty of the borrower or issuer;
- A breach of contract such as a default or past due event;
- The restructuring of a loan or advance on terms that would otherwise not be considered;
- It is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- The disappearance of an active market for a security because of financial difficulties.

A loan that has been renegotiated due to a deterioration in the borrower's condition is usually considered to be credit-impaired unless there is evidence that the risk of not receiving contractual cash flows has reduced significantly and there are no other indicators of impairment. In addition, a retail loan that is overdue for 90 days or more is considered impaired.

##### **Presentation of allowance for ECL in the statement of financial position**

Loss allowances for ECL are presented in the statement of financial position as follows:

- Financial assets measured at amortised cost: as a deduction from the gross carrying amount of the assets;
- Loan commitments and financial guarantee contracts: generally, as a provision; and
- Where a financial instrument includes both a drawn and undrawn component, and ECL cannot be identified on the loan commitment component separately from those on the drawn component, a combined loss allowance from both components is presented. Any excess of the loss allowance over the gross amount of the drawn component is presented as a provision.

## **Notes to the Financial Statements**

**For the Year Ended 30 June 2020**

### **1 Summary of Significant Accounting Policies (continued)**

#### **(i) Loan Impairment (continued)**

##### **Write-off**

Loans and debt securities are written off, either partially or in full, when there is no realistic prospect of recovery. This is generally the case when it is determined the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the procedures for recovery of amounts due.

#### **(j) Impairment**

At the end of each reporting period, NICU determines whether there is evidence of an impairment indicator for non-financial assets.

Where this indicator exists and regardless for goodwill, indefinite life intangible assets and intangible assets not yet available for use, the recoverable amount of the assets is estimated.

Where assets do not operate independently of other assets, the recoverable amount of the relevant cash-generating unit (CGU) is estimated.

The recoverable amount of an asset or CGU is the higher of the fair value less costs of disposal and the value in use. Value in use is the present value of the future cash flows expected to be derived from an asset or cash-generating unit.

Where the recoverable amount is less than the carrying amount, an impairment loss is recognised in profit or loss.

Reversal indicators are considered in subsequent periods for all assets which have suffered an impairment loss, except for goodwill.

#### **(k) Equity Investments and Other Securities**

Investments in shares are classified as fair value through other comprehensive income assets where they do not qualify for classification as loans and receivables, or investments held for trading.

Investments in shares which do not have a ready market and are not capable of being reliably valued are recorded at the lower of cost or recoverable amount.

All investments are in Australian currency.

#### **(l) Intangible Assets**

Items of computer software which are not integral to the computer hardware owned by NICU are classified as intangible assets.

Computer software under development is amortised over the expected useful life of the software on a straight-line basis. These lives range from 3 to 5 years.

The finance portfolio acquired is stated at cost and are considered to have indefinite useful lives and are not amortised. The useful life is assessed annually to determine whether events or circumstances continue to support an indefinite useful life assessment. The carrying value of the finance portfolio is reviewed annually for impairment, at the same time every year.

## **Notes to the Financial Statements**

**For the Year Ended 30 June 2020**

### **1 Summary of Significant Accounting Policies (continued)**

#### **(m) Bad debts written off**

Bad debts are written off from time to time as determined by management and the board of directors when it is reasonable to expect that the recovery of the debt is unlikely. Bad debts are written off against the provisions for impairment, if a provision for impairment had previously been recognised. If no provision had been recognised, the write offs are recognised as expenses in profit or loss.

#### **(n) Property, Plant and Equipment**

Classes of property, plant and equipment are measured using the cost model as specified below.

Where the cost model is used, the asset is carried at its cost less any accumulated depreciation and any impairment losses. Costs include purchase price, other directly attributable costs and the initial estimate of the costs of dismantling and restoring the asset, where applicable.

#### **Depreciation**

The depreciable amount of all property, plant and equipment, except for freehold land is depreciated on a straight-line method from the date that management determine that the asset is available for use.

Assets held under a finance lease and leasehold improvements are depreciated over the shorter of the term of the lease and the assets useful life.

The estimated useful lives used for each class of depreciable asset are shown below:

<b>Fixed asset class</b>	<b>Useful life</b>
Buildings	10 to 40 years
Leasehold improvements	5 to 10 years
Plant and Equipment	3 to 40 years

At the end of each annual reporting period, the depreciation method, useful life and residual value of each asset is reviewed. Any revisions are accounted for prospectively as a change in estimate.

#### **(o) Investment property**

Investment property is held at cost which includes expenditure that is directly attributable to the acquisition of the investment property. The investment properties are depreciated on a straight line basis over 40 years.

#### **(p) Members' Deposits**

Member savings and term investments are recognised at the aggregate amount of money owing to depositors. The amount of interest accrued at balance date is shown as part of payables.

#### **(q) Interest Expense**

Interest expense is recognised in the profit or loss using the effective interest method. The effective interest rate is the rate that exactly discounts the estimated future cash payments and receipts through the expected life of the financial liability (or, where appropriate, a shorter period) to the carrying amount of the financial liability. When calculating the effective interest rate, NICU estimates future cash flows considering all contractual terms of the financial instruments, but not future credit losses.

## **Notes to the Financial Statements**

**For the Year Ended 30 June 2020**

### **1 Summary of Significant Accounting Policies (continued)**

#### **(r) Redeemable Preference Shares**

NICU issues redeemable preference shares to each Member upon joining in accordance with the Constitution of NICU. Member shares are issued at a face value of \$10.00 each. A Member share must confer the right to 1 vote, and only 1 vote, at meetings of NICU's Members. No dividend is payable in respect of any Member share.

On 22 November 2013, NICU amended its constitution in respect of the subscription of Member shares.

(a) Member shares issued up to the date of the amendment are redeemed for their face value of \$10.00 each on leaving NICU. On a winding up of NICU the holder of this Member share is entitled:

- i. to payment of the subscription price for the member share when the Member subscribed for the Member share; and
- ii. if any assets remain after the payments in paragraph (a)(i) to any surplus assets of NICU, on par with (b).

(b) On a winding up of NICU the holder of a Member share issued subsequent to the amendment is entitled to a share of the surplus assets of the Credit Union (if any) after making the payments mentioned in (a)(i), on par with (a)(ii), less the subscription price of \$10.00 for the Member share.

#### **(s) Payables**

Liabilities are recognised for amounts to be paid in the future for goods or services received.

#### **(t) Employee benefits**

Provision is made for Company's liability for employee benefits arising from services rendered by employees to the end of the reporting period. Employee benefits that are expected to be settled within one year have been measured at the amounts expected to be paid when the liability is settled.

Provision for long service leave is on a pro-rata basis from commencement of employment with NICU based on the present value of its estimated future cash flows.

Annual leave is accrued in respect of all employees on pro-rata entitlement for part years of service and leave entitlement due but not taken at balance date. Annual leave is reflected as part of the sundry creditors and accruals.

Contributions are made by NICU to an employee's superannuation fund and are charged to profit or loss as incurred.

#### **(u) Borrowings**

All borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the loans and borrowings using the effective interest method.

## **Notes to the Financial Statements**

**For the Year Ended 30 June 2020**

### **1 Summary of Significant Accounting Policies (continued)**

#### **(v) Goods and Services Tax (GST)**

As a financial institution NICU is input taxed on all income except for income from commissions and some fees. An input taxed supply is not subject to GST collection, and similarly the GST paid on related or apportioned purchases cannot be recovered. As some income is charged GST, the GST on purchases are generally recovered on a proportionate basis. In addition certain prescribed purchases are subject to reduced input tax credits (RITC), of which 75% of the GST paid is recoverable.

Revenue, expenses and assets are recognised net of the amount of goods and services tax (GST). To the extent that the full amount of the GST incurred is not recoverable from the Australian Tax Office (ATO), the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense.

Receivables and payables are stated with the amount of GST included. The net amount of GST recoverable from, or payable to, the ATO is included as a current asset or current liability in the balance sheet. Cash flows are included in the cash flow statement on a gross basis. The GST components of cash flows arising from investing and financing activities which are recoverable from, or payable to, the Australian Taxation Office are classified as operating cash flows.

#### **(w) Leases**

NICU recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use assets is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-to-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, NICU's incremental borrowing rate. Generally, NICU uses its' incremental borrowing rate as the discount rate.

Leases of fixed assets where substantially all the risks and benefits incidental to the ownership of the asset, but not the legal ownership that are transferred to entities in NICU, are classified as finance leases.

Finance leases are capitalised by recording an asset and a liability at the lower of the amounts equal to the fair value of the leased property or the present value of the minimum lease payments, including any guaranteed residual values. Lease payments are allocated between the reduction of the lease liability and the lease interest expense for the period.

#### **(x) Financial instruments**

##### **Impairment of financial assets**

Financial assets carried at amortised cost and those carried at fair value through other comprehensive income (FVOCI) are subject to a three-stage expected credit loss model. Loss allowances are measured at an amount equal to lifetime expected credit losses (ECL), expect for the following, which are measured as 12 months ECL:

## **Notes to the Financial Statements**

**For the Year Ended 30 June 2020**

### **1 Summary of Significant Accounting Policies (continued)**

#### **(x) Financial instruments (continued)**

##### **Impairment of financial assets (continued)**

- debt investment securities that are determined to have a low credit risk at the reporting date; and
- other financial instruments on which credit risk has not significantly increased since initial recognition.

##### **Financial assets and liabilities**

Financial assets and liabilities are recognised when NICU becomes a party to the contractual provisions of the financial instrument and are measured initially at cost adjusted by transaction costs, except for those carried at fair value through profit or loss, which are measured initially at fair value. Subsequent measurement of financial assets and liabilities are described below.

Financial assets are derecognised when the contractual rights to the cash flows from the financial asset expire, or when the financial asset and all substantial risks and rewards are transferred. A financial liability is derecognised when it is extinguished, discharged, cancelled or expires.

##### **Classification and measurement of financial liabilities**

Financial liabilities include borrowings, Member deposits and other payables. They are initially measured at fair value, and where applicable, adjusted for transaction costs unless NICU designated a financial liability at fair value through the profit and loss. Subsequently, financial liabilities are measured at amortised cost using the effective interest method except financial liabilities designated at fair value through profit and loss, which are carried subsequently at fair value with gains or losses recognised in the profit and loss.

All interest related charges and if applicable, changes in an instrument's fair value that are reported in the profit and loss are included within interest or non-interest expenses.

##### **Classification of financial assets**

Except for those trade receivables that do not contain a significant financing component and are measured at the transaction price, all financial assets are initially measured at fair value adjusted for transaction costs (where applicable).

For the purpose of subsequent measurement, financial assets other than those designated and effective as hedging instruments are classified into the following categories upon initial recognition:

- Amortised cost;
- Fair value through profit and loss (FVPL); or
- Fair value through other comprehensive income (FVOCI).

## **Notes to the Financial Statements**

**For the Year Ended 30 June 2020**

### **1 Summary of Significant Accounting Policies (continued)**

#### **(x) Financial instruments (continued)**

##### **Classification of financial assets (continued)**

All income and expenses relating to financial assets that are recognised in profit or loss are presented within net interest income, fees commissions and other income or non-interest expenses.

Classifications are determined both by:

- NICU's business model for managing the financial asset; and
- The contractual cash flow characteristics of the financial assets.

##### **Subsequent measurement of financial assets**

###### **Financial assets at amortised costs**

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as a FVPL:

- The asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- The contractual terms of the financial asset give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial recognition, these are measured at amortised cost using the effective interest method. Discounting is omitted where the effect of discounting is immaterial. Cash, cash equivalents and trade receivables fall into this category of financial instruments.

###### **Financial assets at Fair Value through Profit and Loss (FVPL)**

Financial assets that are within a different business model other than 'hold to collect' or 'hold to collect and sell' are categorised as fair value through profit or loss. Irrespective of the business model, financial assets whose contractual cash flows are not solely payments of principal and interest are accounted for at FVPL.

###### **Fair Value through Other Comprehensive Income (FVOCI)**

Investments in equity instruments that are not held for trading are eligible for an irrevocable election at inception to be measured at FVOCI. Subsequent movements in fair value are recognised in other comprehensive income and are never reclassified to profit or loss. Dividends from these investments continue to be recorded as other income within the profit or loss unless the dividend clearly represents return of capital. This category includes unlisted equity securities such as shares in CUSCAL.

###### **Loan to Members**

Loans and advances' captions in the statement of financial position include loans and advances measured at amortised cost; they are initially measured at fair value plus incremental direct transaction costs, and subsequently at their amortised cost using the effective interest method.

## **Notes to the Financial Statements**

**For the Year Ended 30 June 2020**

### **1 Summary of Significant Accounting Policies (continued)**

#### **(x) Financial instruments (continued)**

##### **Loan to Members (continued)**

Loans and advances were non-derivative financial assets with fixed or determinable payments that were not quoted in an active market and that NICU did not intend to sell immediately or in the near term.

#### **(y) Accounting standards issued but not yet effective**

The Australian Accounting Standards Board has issued new and amended Accounting Standards and Interpretations that have mandatory application dates for future reporting periods. NICU does not expect the adoption of these standards to have any impact on the reporting position or performance of the Credit Union.

#### **(z) Critical accounting estimates and judgments**

The directors evaluate estimates and judgments incorporated into the financial statements based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Group.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected. Balances which include critical accounting estimates and judgements have been disclosed in the following notes:

- Note 9 - Impairment of Loans and Advances
- Note 10 - Investments
- Note 14 - Intangible Assets

### **2 Financial Risk Management**

The Board has adopted a policy of compliance and risk management to suit the risk profile of NICU. NICU's risk management focuses on the major areas of market risk, credit risk and operational risk.

The Board has ultimate responsibility to ensure that an appropriate risk profile and appetite is set and complied with. It approves the level of risk which NICU is willing to operate within and builds the framework for reporting and mitigating those risks. The scope of the risk is determined in light of the size, complexity, risk appetite, prudential framework and economic environment within which NICU is operating.

The Board has developed a committee structure to assist in the overseeing and management of the risk management system. The key committees include:

Board Risk Committee: comprising of Directors, this second line of defence body acts to review and challenge decisions. This is a key body in the control of risk and has representatives from both management and staff. The committee does not form a view on the acceptability of risks but instead reviews risks and controls that are used to mitigate those risks. This includes the identification, assessment and reporting of risks. Regular monitoring is carried out by the Committee through monthly review of operational reports acquired using Protecht's Enterprise Risk Management System.

## **Notes to the Financial Statements**

**For the Year Ended 30 June 2020**

### **2 Financial Risk Management (continued)**

The Committee carries out a regular review of risk areas to ensure that risks are being properly controlled and reported. It also ensures that contingency plans are in place to achieve business continuity in the event of serious disruptions to business operations. Key reports are presented to the board in the monthly board pack. Monitoring and reviewing of the Enterprise Risk Management System is included in the internal audit scope.

Audit Committee: its key role in risk management is the assessment of the controls that are in place to mitigate risks. The Audit Committee considers and confirms that the significant risks and controls are to be assessed within the internal audit plan. The Audit Committee receives the internal audit reports on assessment and compliance with the controls, and provides feedback to management for their consideration.

Asset and Liability Committee (ALCO): this committee of executive management meets at least quarterly and has responsibility for managing NICU's market risk, liquidity risk and credit risk.

The ALCO scrutinises operational reports, monitors exposures against limits determined by the Board and ensures compliance with policies and procedures implemented by NICU. In addition, it monitors the changing environment and the effect that these factors may have on NICU's operations.

Internal Audit: Internal audit has responsibility for implementing the controls testing and assessment as required by the Audit Committee.

Key risk management policies encompassed in the overall risk management framework include:

- Interest rate risk
- Liquidity management
- Credit risk management
- Operations risk management

NICU has undertaken the following strategies to minimise the risks arising from financial instruments.

#### **(a) Market risk**

The objective of NICU's market risk management is to manage and control market risk exposures in order to optimise risk and return.

Market risk is the risk that changes in interest rates, foreign exchange rates or other prices and volatilities will have an adverse effect on NICU's financial condition or results. NICU is not exposed to currency risk, and other significant price risk. NICU does not trade in the financial instruments it holds on its books. NICU is exposed only to interest rate risk arising from changes in market interest rates.

The management of market risk is the responsibility of the ALCO, which reports directly to the board.

##### **(i) Interest rate risk**

Interest rate risk is the risk of variability of the fair value of future cash flows arising from financial instruments due to the changes in interest rates. NICU does not have treasury operations and does not trade in financial instruments and is therefore not exposed to interest rate risk arising from those activities.

## Notes to the Financial Statements

For the Year Ended 30 June 2020

### 2 Financial Risk Management (continued)

#### (a) Market risk (continued)

NICU however is exposed to interest rate risk in its banking book due to mismatches between the repricing dates of assets and liabilities. The interest rate risk on the banking book is measured quarterly and reported to ALCO. NICU utilises Visual Risk and APRA reporting to assist in measuring and managing interest rate risk.

In the banking book, the most common risk NICU faces arises from fixed rate assets and liabilities. This exposes NICU to the risk of sensitivity should interest rates change. The level of mismatch in the banking book is set out in Note 22. The table set out in Note 22 displays the period that each asset and liability will reprice as at the balance date. This risk is not considered significant to warrant the use of derivatives to mitigate this risk.

#### Method of managing risk

NICU manages its interest rate risk by the use of Value at Risk (VaR model). NICU's exposure to market risk is measured and monitored using the VaR methodology of estimating potential losses. Each quarter, a report is generated using the Visual Risk software which calculates the VaR. VaR is a technique that estimates a potential loss that occurs on risk positions taken due to movements in market rates and prices over specified time period to a given level of confidence. VaR, as set out in the table below, has been calculated using historical simulations and using movements in market rates and prices over a period of 1 year, with a 99% confidence level, taking into consideration historical correlations between different markets and rates.

The VaR on the non-trading book was as follows:

VaR	2020	2019
\$ value	528,848	428,551
% of Capital	1.72%	1.37%

NICU is therefore 99% confident that, given the risks as at 30 June 2020, it will not incur a one day loss on its non-trading book of more than the amount shown above, based on the VaR model used.

Although the use of VaR models calculates the interest rate sensitivity on the banking book, this is not reflected in the Pillar 1 capital requirement. NICU's exposure to banking book interest rate risk is not expected to change materially in the next year, so existing capital requirements are considered to be an accurate measurement of capital needed to mitigate interest rate risk.

#### (b) Liquidity risk

Liquidity risk is the risk that NICU may encounter difficulties raising funds to meet commitments associated with financial instruments, e.g. borrowing repayments or member withdrawal demands. It is the policy of the board of directors that adequate cash reserves and committed credit facilities are maintained so as to meet the Member withdrawal demands when requested.

NICU manages liquidity risk by:

- Continuously monitoring actual daily cash flows;
- Monitoring the maturity profiles of financial assets and liabilities;
- Maintaining adequate reserves, overdraft facilities and liquidity support facilities; and
- Daily monitoring of the prudential liquidity ratio.

## Notes to the Financial Statements

For the Year Ended 30 June 2020

### 2 Financial Risk Management (continued)

#### (b) Liquidity risk (continued)

NICU has a longstanding arrangement with the industry support Credit Union Financial Support Services (CUFSS) which can access funds to provide support to NICU at short notice should it be necessary.

NICU is classified as an ADI subject to the Minimum Liquidity Holdings (“MLH”) regime under Prudential Standard APS 210 Liquidity. Under the MLH regime, NICU is required to maintain at least 9% of total adjusted liabilities as liquid assets eligible for repurchase by the RBA and capable of being converted to cash within two business days. NICU policy is to apply a minimum 12% of funds as liquid assets to maintain adequate funds for meeting Member withdrawal requests, with at least 80% of total liquid assets being held with institutions holding a credit grading of 2 or higher (in accordance with the credit gradings prescribed by APS 210). The liquidity ratio is checked daily. Should the liquidity ratio fall below this level the management and board are to address the matter and ensure that the liquid funds are obtained from new deposits, or borrowing facilities available. Note 24 describes the borrowing facilities as at the balance date. These facilities are in addition to the support from CUFSS.

The maturity profile of the financial assets and financial liabilities, based on the contractual repayment terms are set out in Note 22 (c). The ratio of liquid funds over the past year is set out below:

	Consolidated Group		Northern Inland Credit Union Ltd	
	2020	2019	2020	2019
	%	%	%	%
<b>APRA</b>				
MLH Ratio – 30 June	18.41	14.85	18.28	14.78
Minimum during the year	12.48	12.76	12.48	12.67

## Notes to the Financial Statements

### For the Year Ended 30 June 2020

#### 2 Financial Risk Management (continued)

##### (c) Credit risk

Credit risk is the risk that Members, financial institutions and other counterparties will be unable to meet their obligations to NICU which may result in financial losses. Credit risk arises principally from NICU's loan book and investment assets.

##### (i) Credit risk – Loans

The analysis of NICU's loans by class, is as follows:

	Carrying value	Off balance sheet	Max exposure
	\$	\$	\$
<b>2020</b>			
Mortgages	238,108,889	14,642,799	252,751,688
Personal	10,367,527	662,988	11,030,515
Overdrafts	1,587,443	3,444,520	5,031,963
<b>Total to natural persons</b>	<u>250,063,859</u>	<u>18,750,307</u>	<u>268,814,166</u>
Corporate borrowers	9,571,520	2,138,449	11,709,969
<b>Total</b>	<u>259,635,379</u>	<u>20,888,756</u>	<u>280,524,135</u>
<b>2019</b>			
Mortgages	217,558,071	10,682,889	228,240,960
Personal	10,821,122	643,746	11,464,868
Overdrafts	1,840,427	3,811,182	5,651,609
<b>Total to natural persons</b>	<u>230,219,620</u>	<u>15,137,817</u>	<u>245,357,437</u>
Corporate borrowers	13,293,562	1,433,668	14,727,230
<b>Total</b>	<u>243,513,182</u>	<u>16,571,485</u>	<u>260,084,667</u>

Carrying value is the value on the Statement of Financial Position. Maximum exposure is the value on the Statement of Financial Position plus the undrawn facilities (loans approved not advanced, redraw facilities and overdraft facilities). The details are shown in Note 23.

All loans and facilities are within Australia. The geographic distribution is not analysed into significant areas within Australia as the exposure classes are not considered material. Concentrations are described in Note 8.

The composition of the lending book is monitored from month to month and over time to identify any substantial change between mortgage, personal loan and commercial exposures that might warrant variance of exposure limits or provisioning.

The method of managing credit risk is by way of strict adherence to the credit assessment policies before loans are approved and regular close monitoring of defaults in the repayment of loans thereafter. The credit policy has been endorsed by the board to ensure that loans are only made to members that are creditworthy (capable of meeting loan repayments). A hindsight review process is employed by the lending team to review approved loan applications to ensure the applicable policies and procedures have been followed in establishing the exposure.

## **Notes to the Financial Statements**

**For the Year Ended 30 June 2020**

### **2 Financial Risk Management (continued)**

#### **(c) Credit risk (continued)**

NICU has established policies over the following:

- Credit assessment and approval of loans and facilities designed to ensure comprehensive risk assessment and security requirements;
- Limits of acceptable exposure to individual borrowers, non mortgage secured loans and commercial lending;
- Reassessment and review of the credit exposures on loans and facilities;
- Establishing appropriate provisions to recognise the impairment of loans and facilities;
- Debt recovery procedures; and
- Review of compliance with these policies.

A regular review of compliance is conducted as part of the internal audit scope.

#### **Past due and impaired**

A financial asset is past due when the counterparty has failed to make a payment when contractually due. As an example, a Member enters into a lending agreement with NICU that requires interest and a portion of the principle to be paid every month. On the first day of the next month, if the agreed repayment amount has not been paid, the loan is past due. Past due does not mean that counterparty will never pay, but it can trigger various actions such as renegotiation, enforcement of covenants, or legal proceedings. Once the past due exceeds 90 days the loan is regarded as impaired, unless other factors indicate the impairment should be recognised sooner.

NICU is required to determine a likely impairment loss on loans that have not maintained the loan repayments in accordance with their loan contract and have consequently fallen into arrears, or for some other reason are deemed to be at risk of suffering impairment.

In identifying the likely loss due to impairment, each loan that falls into this category is reviewed for the likelihood of full or partial recovery and the extent of possible loss. Depending on the loan's characteristics, the recoverability of the debt and any special arrangements put in place for repayment, a percentage is then applied to the balance outstanding to ascertain that portion of the loan that is deemed to be at risk of non-recovery.

In addition to specific provisions against individually significant financial assets, NICU makes collective assessments for each financial asset portfolio segmented by similar risk characteristics.

Statement of financial position provisions are maintained at a level that management deems sufficient to absorb probably incurred losses in NICU's portfolio from homogenous portfolios of assets and individually identified loans.

A provision for impaired losses is established on all past due loans after a specified period of repayment default where it is probable that some of the capital will not be repaid or recovered. Specific loans and portfolios of assets are provided against depending on a number of factors including deterioration in country risk, changes in a counterparty's industry, and technological developments, as well as identified structural weaknesses or deterioration in cash flows.

## **Notes to the Financial Statements**

**For the Year Ended 30 June 2020**

### **2 Financial Risk Management (continued)**

#### **(c) Credit risk (continued)**

The provisions for impaired and past due exposures relate to loans to Members. Past due value is the 'on statement of financial position' loan balances which are past due by 90 days or more. Details are as set out in Note 9.

##### **Bad debts**

Amounts are written off when collection of the loan or advance is considered to be remote. All write offs are on a case by case basis, taking account of the exposure at the date of the write off.

On secured loans, the write off takes place on ultimate realisation of collateral value, or from claims on any lenders mortgage insurance. A reconciliation in movement of both past due and impaired exposure provision is provided in Note 9(a).

##### **Collateral securing loans**

A sizeable portfolio of the loan book is secured on residential property in Australia. Therefore, NICU is exposed to risks in the reduction to the Loan to Value (LVR) cover should the property market be subject to a decline.

The risk of losses from the loans undertaken is primarily reduced by the nature and quality of the security taken. Note 8(b) describes the nature and extent of the security held against the loans held as at the balance date.

##### **Concentration risk – individuals**

Concentration risk is a measurement of NICU's exposure to an individual counterparty (or group of related parties). If prudential limits are exceeded as a proportion of NICU's regulatory capital (10 per cent), a large exposure is considered to exist. No capital is required to be held against these but APRA must be informed. APRA may impose additional capital requirements if it considers the aggregate exposure to all loans over the 10% capital benchmark, to be higher than acceptable.

NICU does not hold any large exposure loans as at balance date (greater than 10 per cent of capital). Concentration exposures to counterparties are closely monitored and are reported to the Board on a monthly basis and to APRA on a quarterly basis. Average LVR of the loan book is also monitored and reported to the Board.

##### **Concentration risk – industry**

There is no concentration of credit risk with respect to loans and receivables as NICU's borrowing Members are dispersed across a wide cross-section of industries which is typical of a community based credit union.

#### **(ii) Credit risk - Liquid investments**

Credit risk attaching to liquid investments is the risk that the other counterparty to a financial instrument will fail to discharge their obligation resulting in NICU incurring a financial loss. This usually occurs when debtors fail to settle their obligations owing to NICU.

## Notes to the Financial Statements

For the Year Ended 30 June 2020

### 2 Financial Risk Management (continued)

#### (c) Credit risk (continued)

There is a concentration of credit risk with respect to investment receivables with the placement of investments in CUSCAL. The Board policy is that investments are only made to institutions that are credit worthy and this is determined through a due diligence process performed prior to an investment being placed. The Board has established policies to ensure that a maximum of 25% of Tier 1 capital can be invested with any one financial institution at a time, with the exception of CUSCAL where up to 80% of Tier 1 capital can be invested.

The risk of losses from the liquid investments placed is reduced by applying portfolio diversification and ensuring a large number of counterparties are invested with across a range of investment horizons.

Under the liquidity support scheme, minimum deposit requirements apply.

#### External Credit Assessment for Institution Investments

NICU uses the ratings assigned by ratings agencies such as Moody's Investor Services and Standard and Poor's to assess the credit quality of all investment exposures, and where applicable, using the credit quality assessment scale in the APRA Associated Guidance Note to Australian Prudential Standard APS 112. As at the balance date, the credit quality assessment scale within APS 112 had been complied with.

The exposure values associated with each credit quality step are as follows (inclusive of interest receivable):

	Consolidated Group		Northern Inland Credit Union Ltd	
	2020	2019	2020	2019
	\$	\$	\$	\$
<b>Investments with:</b>				
CUSCAL – rated A+/A-1	<b>16,082,763</b>	14,758,880	<b>16,082,763</b>	14,758,880
Financial institutions - rated AA- and above	<b>16,638,166</b>	9,644,611	<b>16,629,670</b>	9,635,593
Financial institutions - rated from BBB- to < AA-	<b>39,414,393</b>	18,417,488	<b>39,414,393</b>	18,142,904
Unrated institutions - Credit Unions/Mutual Banks	<b>10,559,075</b>	15,394,698	<b>10,559,075</b>	13,088,660
	<b>82,694,397</b>	58,215,677	<b>82,685,901</b>	55,626,037

## **Notes to the Financial Statements**

**For the Year Ended 30 June 2020**

### **2 Financial Risk Management (continued)**

#### **(d) Operational risk**

Operational risk is the risk of loss arising from deficiencies in processes, personnel, technology and infrastructure, and from external factors other than credit, market, interest rate and liquidity risks. Operational risks in NICU relate mainly to those risks from a number of sources including, but not limited to, legal compliance, business continuity, data infrastructure and security, outsourced services failures, fraud and employee errors.

NICU's objective is to manage operational risk so as to balance the avoidance of financial losses through the implementation of controls, whilst avoiding procedures which inhibit innovation and creativity. These risks are managed through the implementation of policies and systems to monitor the likelihood of the events and minimise the impact. Systems of internal control are enhanced through:

- Segregation of duties between employees and functions wherever practical, including approval and processing duties;
- Documentation of policies and procedures, employee job descriptions and responsibilities, to reduce the incidence of errors and inappropriate behaviour;
- Implementation of whistle blowing policies to promote a compliant culture and awareness of the duty to report exceptions by staff;
- Education of Members to review their account statements and report exceptions to NICU promptly;
- Effective dispute resolution procedures to respond to Member complaints;
- Effective insurance arrangements to reduce the impact of losses; and
- Contingency plans to address the loss of functionality of systems, premises, utilities or staff.

#### **Fraud**

Fraud can arise from Members' cards and online banking passwords being compromised where not protected adequately by the Member. It can also arise from other systems failures. NICU has systems in place which are considered to be robust enough to prevent any material fraud. However, in common with all retail banking, fraud is potentially a real cost.

#### **IT Systems**

The worst case scenario would be the failure of NICU's core banking and IT network suppliers, to meet customer obligations and service requirements. NICU has outsourced the IT systems management to an independent data processing centre, TransActions Solutions Limited (TAS). This organisation has the experience in-house to manage any short-term problems and has a contingency plan to manage any related power or systems failures. Other network suppliers are engaged on behalf of NICU by the industry body CUSCAL, to service the settlements with other financial institutions for direct entry, ATM and Visa cards etc.

## Notes to the Financial Statements

For the Year Ended 30 June 2020

### 2 Financial Risk Management (continued)

#### (e) Capital management

The capital levels are prescribed by the Australian Prudential Regulation Authority (APRA). Under the APRA prudential standards, capital is determined in three components:

- Credit risk
- Market risk
- Operational risk.

The market risk component is not required as NICU is not engaged in a trading book for financial instruments.

#### Capital resources

##### Tier 1 Capital

The vast majority of Tier 1 capital comprises:

- General reserves
- Retained earnings

##### Tier 2 Capital

Tier 2 capital consists of capital instruments that combine the features of debt and equity in that they are structured as debt instruments, but exhibit some of the loss absorption and funding flexibility features of equity. There are a number of criteria that capital instruments must meet for inclusion in Tier 2 capital resources as set down by APRA. The vast majority of NICU's Tier 2 capital comprises a General Reserve for Credit Losses. Capital in NICU and the Consolidated Group are made up as follows:

	Consolidated Group		Northern Inland Credit Union Ltd	
	2020	2019	2020	2019
	\$	\$	\$	\$
<b>Tier 1 Common Equity</b>				
General reserves	37,792,861	37,105,681	33,382,066	32,744,171
Current years earnings	1,240,990	1,021,520	1,162,396	972,234
	<b>39,033,851</b>	38,127,201	<b>34,544,462</b>	33,716,405
Less deductions	(5,980,783)	(4,340,901)	(4,930,387)	(3,290,505)
<b>Net Tier 1 capital</b>	<b>33,053,068</b>	33,786,300	<b>29,614,075</b>	30,425,900
<b>Tier 2</b>				
General reserve for credit losses	1,128,450	850,000	1,128,450	850,000
Less deductions	-	-	-	-
<b>Net Tier 2 capital</b>	<b>1,128,450</b>	850,000	<b>1,128,450</b>	850,000
<b>Total capital</b>	<b>34,181,518</b>	34,636,300	<b>30,742,525</b>	31,275,900

## Notes to the Financial Statements

For the Year Ended 30 June 2020

### 2 Financial Risk Management (continued)

#### (e) Capital management (continued)

NICU is required to maintain a minimum capital level of 8% as compared to the risk weighted assets at any given time. The risk weights attached to each asset are based on the weights prescribed by APRA in its Guidance AGN 112-1. The general rules apply the risk weights according to the level of underlying security.

	Consolidated Group			Northern Inland Credit Union Ltd	
	Weight %	Carrying value	Risk weighted value	Carrying value	Risk weighted value
Cash and cash equivalents	0 - 20	1,061,686	-	1,061,486	-
Deposits in highly rated ADIs	20	35,406,856	7,081,371	35,398,360	7,079,672
Deposits in less highly rated ADIs	50	47,287,539	23,643,769	47,287,539	23,643,769
Standard/non-standard loans secured against eligible residential mortgages up to 80% LVR	35 - 75	216,461,193	83,255,371	216,461,193	83,255,371
Standard/non-standard loans secured against eligible residential mortgages over 80% LVR	50 - 100	24,698,836	11,369,902	24,698,836	11,369,902
Past due claims	100	293,064	293,064	293,064	293,064
Other assets	0 - 400	23,420,373	22,763,772	22,465,094	21,808,495
<b>Total commitments undrawn</b>		<b>348,629,547</b>	<b>148,407,249</b>	<b>347,665,572</b>	<b>147,450,273</b>

The capital ratio as at the end of the financial year over the past 5 years is as follows:

	2020	2019	2018	2017	2016
	%	%	%	%	%
Consolidated Group	19.83	21.97	22.00	21.77	21.10
Northern Inland Credit Union	18.07	20.29	20.18	20.02	19.61

The level of capital ratio can be affected by growth in assets relative to growth in reserves and by changes in the mix of assets. To manage NICU's capital, NICU reviews the ratio monthly and monitors major movements in asset levels. Policies require that the Board is informed monthly of the capital ratio and APRA is informed on a quarterly basis. Stress testing of the capital ratio is undertaken on a bi-annual basis.

#### Pillar 2 Capital on Operational Risk

This capital component was introduced as from the 1 January 2013 and coincided with changes in the asset risk weightings for specified loans and liquid investments. Previously no operational charge was prescribed.

NICU uses the Standardised approach which is considered to be most suitable for its business given the small number of distinct transaction streams. The operational risk capital requirement is calculated by mapping NICU's three year average net interest income and net non-interest income to its various business lines. Based on this approach, NICU's operational risk requirement is as follows:

	Amount
	\$
Consolidated Group - Operational Risk Capital	18,555,288
Northern Inland Credit Union - Operational Risk capital	17,300,430

## **Notes to the Financial Statements**

**For the Year Ended 30 June 2020**

### **2 Financial Risk Management (continued)**

#### **(e) Capital management (continued)**

##### **Internal capital adequacy management**

NICU manages its internal capital levels for both current and future activities through a combination of the various committees. The outputs of the individual committees are reviewed by the Board in its capacity as the primary governing body. The capital required for any change in NICU's forecasts for asset growth, or unforeseen circumstances, are assessed by the ALCO and the Board. The Deputy CEO is responsible for updating the forecast capital resources models produced and determining the impact upon the overall capital position of NICU. In relation to the operational risks, the major factors for holding additional capital are:

1. Fraud
2. Key service provider failure
3. Loss of key persons

## Notes to the Financial Statements

### For the Year Ended 30 June 2020

	\$	\$	\$	\$
Overdrafts and revolving credit	<b>2,062,028</b>	2,527,957	<b>2,062,028</b>	2,527,957
Term loans	<b>257,573,351</b>	240,985,225	<b>257,573,351</b>	240,985,225
	<b>259,635,379</b>	243,513,182	<b>259,635,379</b>	243,513,182
Less:				
Provision for doubtful debts	<b>(241,853)</b>	(38,695)	<b>(241,853)</b>	(38,695)
	<b>259,393,526</b>	243,474,487	<b>259,393,526</b>	243,474,487
Less:				
Unamortised loan fees	<b>(421,498)</b>	(401,258)	<b>(421,498)</b>	(401,258)
<b>Net loans and advances</b>	<b>258,972,028</b>	243,073,229	<b>258,972,028</b>	243,073,229

##### (b) Credit quality - security held against loans

Secured by mortgage over real estate	<b>241,446,696</b>	224,665,133	<b>241,446,696</b>	224,665,133
Partly secured by goods mortgage	<b>15,482,153</b>	15,682,018	<b>15,482,153</b>	15,682,018
Wholly unsecured	<b>2,706,530</b>	3,166,031	<b>2,706,530</b>	3,166,031
	<b>259,635,379</b>	243,513,182	<b>259,635,379</b>	243,513,182

It is not practicable to value all collateral as at the balance date due to the variety of assets and condition. A breakdown of the quality of the residential mortgage security on a portfolio basis is as follows:

##### Security held as mortgage against real estate is on the basis of:

- loan to valuation ratio of less than or equal to 80%	<b>216,747,861</b>	205,754,882	<b>216,747,861</b>	205,754,882
- loan to valuation ratio of more than 80% but mortgage insured	<b>21,804,588</b>	17,492,581	<b>21,804,588</b>	17,492,581
- loan to valuation ratio of more than 80% and not mortgage insured	<b>2,894,247</b>	1,417,670	<b>2,894,247</b>	1,417,670
	<b>241,446,696</b>	224,665,133	<b>241,446,696</b>	224,665,133

Where the loan value is less than 80% there is a 20% margin to cover the costs of any sale, or potential value reduction.

# Notes to the Financial Statements

For the Year Ended 30 June 2020

## 9 Provision on impaired loans

### (a) Movement in the provision for impairment

	Consolidated Group		Northern Inland Credit Union Ltd	
	2020	2019	2020	2019
	\$	\$	\$	\$
Balance at the beginning of the year	38,695	14,722	38,695	14,722
Transfers from/(to) Statement of Profit or Loss	203,158	23,973	203,158	23,973
	<u>241,853</u>	<u>38,695</u>	<u>241,853</u>	<u>38,695</u>

During the year ended 30 June 2020, NICU's allowance for expected credit losses increased. This increase was in response to the COVID-19 pandemic and an anticipated increase in credit risk. In responding to this anticipated increase in credit risk, NICU performed the following:

- A review of individual borrowers who had requested a deferral of loan repayments. In estimating the individual amounts to be provided for these exposures, consideration was given to the borrower's credit history, employment sector and value of security held.
- A sensitivity analysis of the mortgage secured portfolio to identify any exposures to a downturn in property prices. A provision was raised after considering the results of this sensitivity analysis.
- A review of the loan portfolio by employment sector, and the impact of anticipated increases in unemployment within high-risk industries. Additional provisions were raised against loans within this portfolio.

The above assessment has been made based on information available at the reporting date.

### (b) Key assumptions in determining the provision for impairment of receivables

The key inputs into the measurement of the provision for impairment includes the following variables:

- Probability of default (PD);
- Loss given default (LGD); and
- Exposure at default (EAD).

These parameters are generally derived from internal analysis, management judgment and other historical data. They are adjusted to reflect forward-looking information as described below.

Probability of default (PD) estimates are calculated based on arrears over 90 days and other loans and facilities where the likelihood of future repayments is low. The definition of default is consistent with the definition of default used for internal credit risk management and regulatory reporting purposes. Instruments which are 90 days past due are generally considered to be in default.

## **Notes to the Financial Statements**

**For the Year Ended 30 June 2020**

### **9 Provision on impaired loans (continued)**

#### **(b) Key assumptions in determining the provision for impairment of receivables (continued)**

Loss given default (LGD) is the magnitude of the likely loss if there is a default. NICU estimates LGD parameters based on the history of recovery rates of claims against defaulted counterparties. The LGD percentage applied considers the structure of the loan, collateral, seniority of the claim, counterparty industry and recovery costs of any collateral that is integral to the financial asset. For loans secured by retail property, Loan to Value Ratios (LVR) are a key parameter in determining LGD. LGD estimates are recalibrated for different economic scenarios and for real estate lending, reflect possible changes in property values.

Exposure at default (EAD) represents the expected exposure in the event of a default. EAD is derived from the current exposure to the counterparty and potential changes to the current amount allowed under the contract including amortisation. The EAD of a financial asset is its gross carrying amount. For lending commitments and financial guarantees, the EAD includes the amount drawn as well as potential future amounts that may be drawn under the contract, which are estimated based on historical observations and future expectations.

#### **Significant increase in credit risk**

NICU is not required to develop an extensive list of factors in defining a 'significant increase in credit risk'. In assessing significant increase in credit risk, the following factors have been considered in NICU's current model:

- Loans more than 30 days past due;
- Loans with approved hardship or modified terms; and
- Environmental impacts.

When determining whether the risk of default on a financial instrument has increased significantly since initial recognition, NICU considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on NICU's historical experience and expert judgment, relevant external factors and including forward-looking information.

NICU presumes that the credit risk on a financial asset has increased significantly since initial recognition when the exposure is more than 30 days past due unless reasonable and supportable information demonstrates otherwise.

The approach in determining the ECL includes forward-looking information. NICU has performed historical analysis and identified the key economic variables impacting credit risk and expected credit losses for each portfolio segment. Given the lack of loss experienced by NICU and across the wider industry, more emphasis has been applied to the historical data available as opposed to forward looking information. Consideration has also been given to the level of undue cost and effort involved in utilising complex statistical models, which is not considered appropriate for the size and complexity of the portfolio.

NICU has considered other forward-looking considerations such as the impact of future unemployment rates, property prices, regulatory change and external market risk factors, which are not deemed to have a material impact and therefore no adjustment has been made to the ECL for such factors. NICU considers the ECL to represent its best estimate of the possible outcomes and is aligned with information used by NICU for other purposes such as strategic planning and budgeting. Periodically NICU carries out stress testing of more extreme shocks to calibrate its determination of other potential scenarios.

## Notes to the Financial Statements

For the Year Ended 30 June 2020

### 9 Provision on impaired loans (continued)

## Notes to the Financial Statements

### For the Year Ended 30 June 2020

#### 9 Provision on impaired loans (continued)

##### (e) Reconciliation from opening to closing balance

The reconciliation below from the opening to closing balance of the provision for impairment by class of financial asset is shown in the table below:

	Stage 1 12-month ECL \$	Stage 2 Lifetime ECL \$	Stage 3 Lifetime ECL \$	Total \$
<b>Northern Inland Credit Union</b>				
<b>Loans to Members</b>				
Balance at 1 July 2019	5,447	33,248	-	38,695
<b>Change in loss allowance</b>				
- Transfer to Stage 1	-	-	-	-
- Transfer to Stage 2	(4,142)	4,142	-	-
- Transfer to Stage 3	-	-	-	-
- Net movement due to change in credit risk	27,146	216,889	-	244,035
- Write-offs	-	(12,426)	-	(12,426)
<b>Balance at 30 June 2020</b>	<b>28,451</b>	<b>241,853</b>	<b>-</b>	<b>270,304</b>

##### (f) Analysis of loans that are impaired or potentially impaired based on age of repayments outstanding

	2020 Carrying Value \$	2020 ECL Allowance \$	2019 Carrying Value \$	2019 ECL Allowance \$
Non impaired up to 30 days	259,144,894	244,676	243,063,742	5,447
30 to 90 days in arrears	191,748	23,220	442,248	27,058
90 to 180 days in arrears	294,432	1,942	-	-
Overlimit facilities	4,305	466	7,192	6,190
<b>Total</b>	<b>259,635,379</b>	<b>270,304</b>	<b>243,513,182</b>	<b>38,695</b>

The impaired loans are generally not secured against residential property. Some impaired loans are secured by bill of sale over motor vehicles or other assets of varying value. It is not practicable to determine the fair value all collateral as at the balance date due to the variety of assets and condition.

##### (g) Loans with repayments past due but not regarded as impaired

There are currently no past due loans which are not considered impaired as the value of the related security over residential property is in excess of the loan due. It is not possible to determine the fair value of the collateral as at balance date due to the variety of assets and condition. Loans with repayments past due but not impaired are in arrears: 2020: \$0 (2019: \$0).

## Notes to the Financial Statements

For the Year Ended 30 June 2020

### 9 Provision on impaired loans (continued)

#### (h) Assets acquired by enforcement of security

There are no assets acquired by NICU. The policy is to arrange sale of the security at the earliest opportunity after measures to assist the members to repay the debts have been exhausted.

#### (i) Key assumptions in determining the provision for impairment

NICU is required to determine a likely impairment loss on loans that have not maintained the loan repayments in accordance with their loan contract and have consequently fallen into arrears, or for some other reason are deemed to be at risk of suffering impairment.

In identifying the likely loss due to impairment, each loan that falls into this category is reviewed for the likelihood of full or partial recovery and the extent of possible loss. Depending on the loan's characteristics, the recoverability of the debt and any special arrangements put in place for repayment, a percentage is then applied to the balance outstanding to ascertain that portion of the loan that is deemed to be at risk of non-recovery. This is aggregated across all loans deemed to be at risk of impairment to arrive at a total likely impairment loss for NICU.

#### (a) CUSCAL Limited (CUSCAL)

The shareholding in CUSCAL is measured at fair value. CUSCAL is a company that was created to supply services to member Credit Unions. These shares are held to enable NICU to receive aggregated banking services. The shares are not able to be publicly traded.

The fair value has been determined by NICU based on a review of available CUSCAL information compared to an internal dividend discount model, and is subject to review on an annual basis.

#### (a) Land and buildings - Valuation

The valuation of land and buildings at 481 Peel Street, Tamworth NSW 2340 has been based upon an independent valuation performed by MVS Valuers as at 14 March 2018. The increase in valuation is reflected in the Asset Revaluation Reserve. Refer to Note 21.

#### (b) Right of Use Asset

The Right-of-Use Asset recognised refers to the leases held over the premises of NICU's Narrabri, Gunnedah and West Tamworth branches. Refer to Note 1 (w) for accounting policies applied during the year.

## **Notes to the Financial Statements**

**For the Year Ended 30 June 2020**

### **21 Reserves (continued)**

#### **Members' shares reserve**

This reserve represents the amount of redeemable preference shares redeemed by NICU since 1 July 1999. The law requires that the redemption of the shares be made out of profits. Since the value of the shares has been paid to members in accordance with the terms and conditions of the share issue, the account represents the amount of profits appropriated to the account.

#### **General reserve for credit losses**

This reserve records amounts previously set aside as a general provision and is maintained to comply with the Prudential Standards set down by APRA.

#### **General reserve**

Retained earnings are cleared out annually to this account and therefore this reserve represents the accumulated retained earnings balance as at the end of the financial year.

#### **Asset revaluation reserve**

This reserve relates to unrealised gains on NICU's land and buildings.

#### **Shares revaluation reserve**

This reserve relates to unrealised gains on NICU's equity investments designated as FVOCI.

## Notes to the Financial Statements

### For the Year Ended 30 June 2020

#### 22 Financial Instruments Disclosure (continued)

##### (c) Maturity profile of financial instruments (continued)

The table below represents the above maturity profile summarised at discounted values. The contractual arrangements best represents the estimated minimum amount of repayment on the loans, liquid investments and on the member deposits. While the liquid investments and Member deposits are presented in the table below on a contractual basis, as part of our normal banking operations we would expect a large proportion of these balances to roll over. Loan repayments are generally accelerated by members choosing to repay loans earlier. These advance repayments are at the discretion of the Members and not able to be reliably estimated.

## (d) Interest rate change profile of financial assets and liabilities

Financial assets and liabilities have conditions which allow interest rates to be amended either on maturity (term deposits and term investments) or after adequate notice is given (loans and savings). The table below shows the respective value of funds where interest rates are capable of being altered within the prescribed time bands, being the earlier of the contractual repricing date, or maturity date.

	Weighted average interest	Within 1 month \$'000	1-3 months \$'000	3-12 months \$'000	1-5 years \$'000	Non- interest bearing \$'000	Total \$'000

## Notes to the Financial Statements

### For the Year Ended 30 June 2020

#### 22 Financial Instruments Disclosure (continued)

##### (e) Fair value of financial assets and liabilities

Fair value has been determined on the basis of the present value of expected future cash flows under the terms and conditions of each financial asset and financial liability. Significant assumptions used in determining the cash flows are that the values and timings of cash flows will be consistent with the contracted terms.

The information is only relevant to circumstances at balance date and will vary depending on the contractual rates applied to each asset and liability, relative to market rates and conditions at the time. No assets held are regularly traded by NICU, and there is no active market to assess the value of the financial assets and liabilities.

The values reported have not been adjusted for the changes in credit ratings of the assets. Disclosure of fair value is not required when the carrying amount is a reasonable approximation of fair value.

	Fair Value \$'000	Carrying value \$'000	Variance \$'000

## **Notes to the Financial Statements**

**For the Year Ended 30 June 2020**

### **22 Financial Instruments Disclosure (continued)**

Assets where the fair value is lower than the book value have not been written down in the accounts of NICU on the basis that they are to be held to maturity, or in the case of loans, all amounts due are expected to be recovered in full.

The fair value estimates were determined by the following methodologies and assumptions:

#### **Liquid assets and receivables from other financial institutions**

The carrying values of cash and liquid assets and receivables due from other financial institutions redeemable within 12 months approximate their fair value as they are short term in nature or are receivable on demand.

#### **Loans and advances**

The carrying value of loans and advances is net of unearned income and both general and specific provisions for doubtful debts.

For variable rate loans, (excluding impaired loans) the amount shown in the balance sheet is considered to be a reasonable estimate of fair value. The fair value for fixed rate loans is calculated by utilising discounted cash flow models (i.e. the net present value of the portfolio future principal and interest cash flows), based on the period to maturity of the loans. The discount rates applied were based on the current applicable rate offered for the average remaining term of the portfolio.

The fair value of impaired loans was calculated by discounting expected cash flows using a rate which includes a premium for the uncertainty of the flows.

#### **Deposits from Members**

The fair value of call and variable rate deposits, and fixed rate deposits repricing within 12 months, is the amount shown in the Balance Sheet. Discounted cash flows were used to calculate the fair value of other term deposits, based upon the deposit type and the rate applicable to its related period maturity.

#### **Creditors**

The carrying value of payables due to other financial institutions approximate to their fair value as they are short term in nature and reprice frequently.

#### **Long term borrowings**

The carrying value of long term borrowings is approximate to their fair value as the instrument is not subject to repricing.

## Notes to the Financial Statements

### For the Year Ended 30 June 2020

#### 23 Financial commitments

##### (a) Outstanding loan commitments

	Consolidated Group		Northern Inland Credit Union Ltd	
	2020	2019	2020	2019
	\$	\$	\$	\$
Loans and credit facilities approved but not funded or drawn at the end of the financial year:

<b>2019</b>			
Overdraft facility	2,000,000	-	2,000,000
<b>Total standby borrowing facilities</b>	<b>2,000,000</b>	<b>-</b>	<b>2,000,000</b>

The overdraft is secured by a \$2 million Term Deposit held with CUSCAL.

### 25 Contingencies

#### (a) Contingent Liabilities

NICU had the following contingent liabilities at the end of the reporting period:

NICU is a member of the Credit Union Financial Support Scheme Limited (CUFSS) a Company limited by guarantee, established to provide financial support to member credit unions in the event of a liquidity or capital problem. As a member, NICU is committed to maintaining 3% of the total assets as deposits with CUSCAL.

Under the terms of the Industry Support Contract (ISC), the maximum call for each participating credit union would be 3% of the credit union's total assets (3% under loans and facilities). This amount represents the participating credit union's irrevocable commitment under the ISC. At the balance date there were no loans issued under this arrangement.

An Industry Support Contract made on the 10 September 1999 between Credit Union Services Corporation (Australia) Limited (CUSCAL), CUFSS and participating credit unions required Northern Inland to execute an equitable charge in favour of CUSCAL. The charge is a fixed and floating charge over the assets and undertakings of NICU and secures any advances, which may be made to NICU under the scheme. The balance of the debt at 30 June 2020 was Nil (2019: Nil).

## Notes to the Financial Statements

For the Year Ended 30 June 2020

### 26 Disclosures on Directors and Other Key Management Personnel

Key management persons are those persons having authority and responsibility for planning, directing and controlling the activities of NICU, directly or indirectly, including any director (whether executive or otherwise) of that credit union. Control is the power to govern the financial and operating policies of a credit union so as to obtain benefits from its activities.

Key management persons (KMP) have been taken to comprise the directors and the members of the management team responsible for the day to day financial and operational management of NICU.

#### (a) Remuneration of Directors and Key Management Personnel (KMP)

The aggregate compensation of key management persons during the year comprising amounts paid or payable or provided for was as follows:

	Consolidated Group		Northern Inland Credit Union Ltd	
	2020	2020	2019	2019
	Directors	Other KMP	Directors	Other KMP
(a) Short-term employee benefits	396,722	858,771	236,664	814,251
(b) Post-employment benefits - superannuation contributions	14,790	73,423	21,217	71,825
(c) Other long-term benefits - net increases in long service leave provision	-	8,026	-	37,012
(d) Other director benefits	-	-	-	-
	<b>411,512</b>	<b>940,220</b>	<b>257,881</b>	<b>923,088</b>

In the above table, remuneration shown as short-term benefits means (where applicable) wages, salaries, paid annual leave and paid sick leave, but excludes out of pocket expense reimbursements. All remuneration to directors was approved by the Members at the previous Annual General Meeting of NICU.

## Northern Inland Credit Union Limited

ABN: 36 087 650 422

# Notes to the Financial Statements

For the Year Ended 30 June 2020

### 26 Disclosures on Directors and Other Key Management Personnel (continued)

#### (b) Loans to Directors and other Key Management Persons (KMP)

	2020	2019
	\$	\$
Aggregate value of loans at balance date	1,167,663	2,749,294
Aggregate value of loans disbursed - Term loans	-	45,200
Total value of overdraft facilities at balance date	<u>52,000</u>	87,000
Less: amounts drawn down:	<u>(15,973)</u>	(12,894)
<b>Net balance available</b>	<b><u>36,027</u></b>	<b>74,106</b>
Aggregate value of overdraft facility limits granted or increased	-	10,000
Interest earned on loans and overdraft facilities	<u>46,374</u>	110,123

NICU's policy for lending to directors and management is that all loans are approved and deposits accepted on the same terms and conditions which applied to Members for each class of loan or deposit with the exception of loans to KMP who are not directors.

There are no loans which are impaired in relation to the loan balances with KMP's. KMP who are not Directors receive a concessional rate of interest on their loans and facilities, which is based on the benchmark rate set for fringe benefits tax.

There are no benefits or concessional terms and conditions applicable to the close family members of the KMP. There are no loans which are impaired in relation to the loan balances with close family relatives of Directors and KMP.

#### (c) Other transactions between related parties including deposits from KMP are:

	2020	2019
	\$	\$
Total value term and savings deposits from KMP	7,846,367	5,213,493
Total Interest paid on deposits to KMP	<u>70,069</u>	61,344

The policy of NICU for receiving deposits from related parties is that all transactions are approved and accepted on the same terms and conditions which applied to Members for each type of deposit, with the exception of interest on Term Deposits. Memberships in the name of KMP and/or their spouses but excluding Directors memberships, superannuation funds and company memberships are given 0.25% per annum above the applicable standard rate offered on Term Deposits invested with NICU.

For the Year Ended 30 June 2020

## 27 Interests in Subsidiaries

The Parent Entity is Northern Inland Credit Union Ltd. Particulars in relation to controlled entities:

	Principal place of business / Country of Incorporation	Percentage Owned (%) 2020	Percentage Owned (%)* 2019
<b>Subsidiaries:</b>			
Northern Inland Investment Group Pty Ltd	Australia	100	100
Northern Inland Investment Services Pty Ltd	Australia	59	59

Northern Inland Investment Group Pty Ltd is the sole unit holder in the Northern Inland Investment Trust for which Northern Inland Credit Union Ltd is the trustee.

The Northern Inland Investment Trust has a 59% (2019 - 59%) ownership interest in the Northern Inland Investment Services Pty Ltd.

## 28 Outsourcing arrangements

NICU has arrangements with other organisations to facilitate the supply of services to Members:

a) Credit Union Services Corporation (Australia) Limited (CUSCAL): CUSCAL is an Approved Deposit Taking Institution registered under the Corporations Act 2001 and the Banking Act. NICU has equity in the company. This organisation:

- i. Provides the licence rights to VISA Card in Australia and supplies services in the form of settlement with other institutions for ATM and VISA card transactions, cheque and direct entry transactions, as well as the production of VISA and Redicards for use by Members.
- ii. Operates the computer network, including switching, used to link Redicards and VISA cards operated through RediATMs and other approved ATM providers to NICU's computer systems.
- iii. Provides treasury and money market facilities to NICU. NICU invests a part of its liquid assets with CUSCAL to comply with the Liquidity Support Scheme requirements. NICU has also established its borrowing facilities with CUSCAL.

b) TransActions Solutions Limited: this company operates the computer facility on behalf of NICU in conjunction with other credit unions. NICU has a management contract with the Bureau to supply computer support staff and services to meet the day-to-day needs of NICU and compliance with relevant Prudential Standards.

c) Ultradata Australia Pty Limited: this company provides and maintains the application software utilised by NICU.

## 29 Superannuation liabilities

NICU contributes to various superannuation plans for the purpose of superannuation guarantee payments and payment of other superannuation benefits on behalf of employees. The plans are administered by independent corporate trustees.

NICU has no interest in the superannuation plans (other than as a contributor) and is not liable for the performance of the plans, or the obligations of the plans.

## INDEPENDENT AUDITOR'S REPORT

### TO THE MEMBERS OF NORTHERN INLAND CREDIT UNION LIMITED

#### Report on the Audit of the Financial Report

##### Opinion

We have audited the financial report of Northern Inland Credit Union Limited (the Credit Union), which comprises the statement of financial position as at 30 June 2020, the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of the Credit Union, is in accordance with the Corporations Act 2001, including:

- (a) Giving a true and fair view of the Credit Union's financial position as at 30 June 2020, and of its financial performance for the year then ended; and
- (b) Complying with the Australian Accounting Standards and Corporations Regulations 2001.

##### Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Report section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

##### Independence

We are independent of the Credit Union in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the Corporations Act 2001, which has been given to the directors of the Credit Union, would be in the same terms if given to the directors as at the time of this auditor's report.

##### Other Information

The directors are responsible for the other information. The other information comprises the information included in the Credit Union's annual report for the year ended 30 June 2020 but does not include the financial report and our auditor's report thereon.

## Other Information (cont'd)

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## Responsibilities of the Directors for the Financial Report

The directors of the Credit Union are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001, and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Credit Union's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Credit Union or to cease operations, or has no realistic alternative but to do so.

## Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Credit Union's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by directors.

## Auditor's Responsibilities for the Audit of the Financial Report (cont'd)

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Credit Union's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Credit Union to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.
