The capital terms are further defined in the APRA Prudential Standards APS 110.

Capital Base

The details of the components of the capital base are set out below as at the 30 June 2021.

The following Table A sets out the elements of the capital held by NICU including the reconciliation of any adjustments required by the APRA Prudential Standards to the audited financial statements. Adjustments are usually in the form of deductions of assets not regarded as recoverable in the short term (such as intangible assets and deferred tax assets), and/or discounts made to eligible capital of a short-term nature.

All regulatory capital elements are consistent with the un-audited financial statements as at the last reporting date.

CAPITAL REQUIREMENTS

Capital requirements for NICU are determined by the risk weights of the relevant assets held with the minimum required capital to over 8% of the risk weighted assets. NICU maintains a capital policy level of minimum 13.5% and a minimum capital target of 16%. The current level of capital is 17.61% (as at 30/06/21).

The risk weighted assets for each asset grouping as set out in the table below is determined by the APRA Prudential Standards APS 112. These are prescribed risk weights to measure the level of risk based on the nature and level of security supporting the assets recovery.

The risk weighted assets held as at the end of the quarter ended 30/06/21 are as follows:

CREDIT RISK

(i) CREDIT RISK – INVESTMENTS

Surplus cash not invested in loans to Members are held in high quality liquid assets. This includes the funds required to be held to meet withdrawal of deposits by NICU Members. NICU uses the ratings of reputable ratings agencies to assess the credit quality of all investment exposures, where applicable, using the credit quality assessment scale in APRA prudential Guidance APG 112. The credit quality assessment scale within this standard has been complied with. The exposure values associated with each credit quality step are as follows in Table E:

(ii) CREDIT RISK – LOANS

The classes of loans entered into by NICU are limited to loans, commitments and other non-market off-balance sheet exposures. NICU does not enter into debt securities and/or over-the-counter derivatives.

Impairment details

The level of impaired loans by class of loan is set out below. In the note below:

- Carrying value is the amount of the balance sheet gross of provision
- Past due loans is the 'on balance sheet' loan balances which are behind in repayments past due by 90 days or more but not impaired
- Impaired loans are the 'on balance sheet' loan balances which are at risk of not meeting all principle and interest repayments over time
- Provision for impairment is the amount of the impairment provision allocated to the class of impaired loans

APS 330 FINANCIAL REPORTING June 2021
Basic public disclosure requirements for locally incorporated ADIs

- The losses in the period equate to the additional provisions set aside for impaired loans, and bad debts written off in excess of previous provision allowances.

The impaired loans are generally not secured against residential property. Some impaired loans are secured by bill of sale over motor vehicles or other assets of varying value. It is not practicable to determine the fair value all collateral as at the balance date due to the variety of assets and condition. The analysis of NICU's loans by class, are as follows in Table F:

General Reserve for Credit Losses

This reserve is set aside to quantify the estimate for potential future losses in loans and investments.

In addition to the provision for impairment, the board has recognised the need to make an allocation from general reserves to ensure there is adequate protection for members against the prospect that some members will experience loan repayment difficulties in the future.

The reserve has been determined on the basis of the past experience with the loan delinquency and amounts written off.

APS 330 FINANCIAL REPORTING June 2021

Basic public disclosure requirements for locally incorporated ADIs

The value of the reserve is amended to reflect the changes in economic conditions, and the relevant concentrations in specific regions and industries of employment within the loan book.
